Re: Letter of Support for "Game Changers"

Dear Mr. Sheppard,

I write today in support of "Game Changers," a program whose focus is to restore the relationship between the community and law enforcement through dialogue and interaction. Creating an opportunity for conversation between residents and police officers is central to improving respect and awareness of cultural understanding for all parties.

The "Game Changers" model will help police officers and the community members recognize commonalities and familiarity between each other. "Game Changers" is precisely the type of initiative we need to support the wellbeing and health of San Diego's communities and law enforcement.

I support your efforts and look forward to being a partner in your program.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Peters".

Scott Peters  
Member of Congress
